What has become of MAGA & MAHA?

BOTH OF THEM ARE NOW HAHA

The US government has just approved a total surveillance system by Palantir and a next generation mRNA Covid 'vaccine' by Moderna. What happened to MAGA and MAHA?

Susie Wiles happened to them. [@Emerald Robinson †](#)

2. Probably nothing.....;)

3. MAGA hired a foreign Doc for MAHA, whose advice was so good he got his father killed. Then they got rid of Weldon for the CDC so the CDC could continue to post pseudoscience on its website. Then they nominated an MD who does not have an active license, cannot obtain medical malpractice insurance, never completed her residency, and who worked for a data thief at 23andMe. You cannot make this up. The data thief company went bankrupt and now BigPharma has all their data to use with the help of Palantir. Who MAGA gave the keys to the kingdom too. The 23andMe disgraced CEO's sister died from a turbo cancer, and she was the co-founder of Google and YouTube, and they fed their data to Palantir. Before she died she censored any bad press on the jabs.

Fiction has to make sense.....The truth does not.

A screenshot of a Twitter post by Mary Talley Bowden MD, a verified account (@MdBreathe) dated June 1. The tweet text is "I could not disagree more @CDCgov." Below the text is a light blue card with the heading "Keep in mind" and a star icon in the top right corner. The card contains the text "Getting a COVID-19 vaccine is a safer, more reliable way to build protection than getting sick with COVID-19." and a link "Learn more about the benefits of getting a COVID-19 vaccine".

I could not disagree more @CDCgov.

Keep in mind

Getting a COVID-19 vaccine is a safer, more reliable way to build protection than getting sick with COVID-19.

4. Then they hired a cancer doc to run the FDA, who will create a retirement stream from his advice at the FDA.

Not MAHA at all!!!

Unreal.

 **Moderna** 🏆 @moderna_tx · May 31

We announced today that the U.S. FDA has approved mNEXSPIKE®, a new vaccine against COVID-19, for use in all adults 65 and older, as well as individuals aged 12 years through 64 years of age with at least one underlying condition that puts them at high risk for severe outcomes

The FDA approval of our third product, mNEXSPIKE®, adds an important new tool to help protect people at high risk of severe disease from COVID-19.

We appreciate the FDA's timely review and thank the entire Moderna team for their hard work and continued commitment to public health.

5. The kicker? They hired the nominated surgeon general lobbyist brother (Calley Means the beta) to ban Fruit Loops and red dye so we would not think about banning the jabs ever again to protect Susie Wiles' clients. None of them thought we would be wise enough to see this psy op right in front of our faces. Why? MKULTRA programming.

No melatonin or dopamine means you can see the truth right in front of your eyes.

6. MAGA AND MAHA ALLOWED THIS TO HAPPEN. Every single one of us is now in our own version of CECOT. And we are still talking Fruit Loops whoi 25 K kids a day are getting popped with a jab that will harm and kill = TAPERING THE PONZI

7. NOTE TO THE FEDERAL GOVT: SAVAGES SAY FUCK YOU.

8. Reality check. It is time to read the amendment between one and three. And comprehend why it was written.

The Sunless Trap: Why You're Stuck in a Dopamine Desert

Change isn't hard, it's impossible for the sun-starved. Low-agency people aren't lazy; their brains are dark. No sunlight = no dopamine. No dopamine = a frontal lobe that can't dream beyond right now. They cling to what they have, blind to what they could gain, because their biology doesn't know opportunity cost.

You're not holding onto your life, you're chained to it. Low dopamine doesn't just kill motivation; it locks you in a now-prison, where the future can't exist. No solar light, no frontal time, no agency. You don't lack discipline, you lack a tomorrow.

The Sun writes time in dopamine-fueled circuits. Without it, your neurology rots in entropy, not emergence. The unwilling don't just stay stuck, they decay. You can't sacrifice who you are because the light that builds who you could be never touched your skin.

Your choices aren't yours until the Sun carves them into your prefrontal cortex with an electric scar. Soak in the light, or stay in the dark forever.
